Glass Transponder Innovation

GTI introduces you into a new era of vehicle keys duplication. Don't miss the chance to discover how to give more value to your business and boost your sales.

GTI. Innovative. Multifunctional. Universal.

- ✓ **Versatile.** With **one single device** you will be able to exploit at best Silca's vehicle keys range (MH keys with TA adapter, Silca Look A-like¹, Flip Keys).
- ✓ **Universal and multifunctional.** GTI is the perfect solution to be fast and competitive: a single chip allows you to reproduce Transponder types Texas[®] Fixed, Texas[®] Crypto and Philips[®] Crypto.
- ✓ **Technological.** GTI can be programmed to **emulate Silca Transponder types** T3, T4, T7, T8, T13, T14, T16, T17, T18, T19, T21, T22, T31 and T32 simply using the "Silca TRP Setting Program" software².
- ✓ **Keep up-to-date.** With Silca you will always be in the forefront with ground-breaking technological solutions and a vehicle keys range continuously updated with the brand new models launched in the markets worldwide.
- ✓ **The right solution in case of vehicle key loss.** GTI can be programmed directly onto the car by means of a Silca device or equivalent³ and/or manual procedure, depending on the vehicle model. The GTI pre-coding is easy, fast and user-friendly.
- ✓ **Compatible.** GTI can be used exclusively on **Silca Transponder devices** RW4 Plus, Fast Copy Plus, RW4 + P-Box and Fast Copy + P-Box⁴.
- ✓ **Reliable.** GTI is reliable because it applies a **high-security protocol**, that guarantees protection against potential risks of illegal cloning.
- ✓ **Rely on Silca's quality** for your key cutting service. Silca is ISO 9001:2008 and ISO/TS 16949:2009 (Automotive Keys) certified: every product is made of high-quality materials and subject to strict controls.
