# KEYLINE FORD REMOTE CONTROLS

Cresce la gamma dei telecomandi auto Keyline. Presentati in anteprima mondiale, i modelli RFD100 e RFD80 per chiavi Ford si clonano interamente a bordo veicolo e garantiscono la sincronizzazione perfetta con il telecomando Ford originale, di cui non altera il funzionamento.

Il telecomando Ford di Keyline è disponibile in due versioni:

**RFD100** - Con scheda integrata del TK100, la testa elettronica universale Keyline che permette di clonare tutti i tipi di transponder a codice fisso, tutti i transponder Texas\*\* Crypto e Philips\* Crypto di seconda generazione. Con questa versione, anche il telecomando può essere facilmente programmato su 884 Decryptor Ultegra senza bisogno di diagnostico.

**RFD80** - Con transponder originale Texas\*\* 80 bit integrato per effettuare la programmazione tramite diagnostico.

Keyline RFD100 e RFD80 hanno una testa plastica dotata di quattro tasti e batteria intercambiabile, e sono disponibili in tre differenti versioni di inserti - FD3, FD21 e FD40 - per la duplicazione di modelli Ford dal 1998 ad oggi.

The range of Keyline car remotes expands with the RFD100 and RFD80 models for Ford keys, presented to the world for the first time. Entirely on-board clonable, they guarantee perfect synchronization with the original Ford remote without altering the functionality.

Keyline remote for Ford is available in two versions:

**RFD100** - With an integrated TK100 board, which is the universal electronic head for all types of fixed code transponders, Texas\*\* Crypto transponders and second generation Philips\* Crypto transponders. With this version, remote functions can be easily programmed with the 884 Decryptor Ultegra without the need of a diagnostic tool.

**RFD80** - With the original Texas\*\* 80 bit integrated transponder, to be programmed with a diagnostic tool.

Keyline RFD100 and RFD80 have a plastic head with four buttons and a replaceable battery, and are available with three different key blades - FD3, FD21 and FD40 - for the duplication of Ford models from 1998 onwards.

\*\* Texas è un chiaro riferimento al marchio registrato Texas Instruments Incorporated. \* Philips è un chiaro riferimento al marchio registrato Philips Industries. Tutti i marchi e i marchi di fabbrica qui pubblicati sono di esclusiva proprietà delle rispettive case o gruppi automobilistici. Ad esempio, marchi come Abarth, Alfa Romeo, Fiat, Lancia sono di proprietà del Gruppo Fiat e sono pubblicati con il solo ed unico fine di guidare il cliente finale nell'identificazione del pezzo di ricambio da utilizzare.

\*\* Texas is a broad meaning of the Company Texas Instruments Incorporated registered as a Trade Mark. \* Philips is a broad meaning of the Company Philips registered as a Trade Mark. All brands and trademarks published here are exclusive property of the relevant car makers or groups. For instance, brands such as Abarth, Alfa Romeo, Fiat, Lancia are owned by the Fiat Group and are published herein only and exclusively as a reference for the final customer, in order to identify the spare part to be used.
