

Twister II *Pro*

Twister II *Pro*

Easy to use, precise duplication for dimple and laser keys

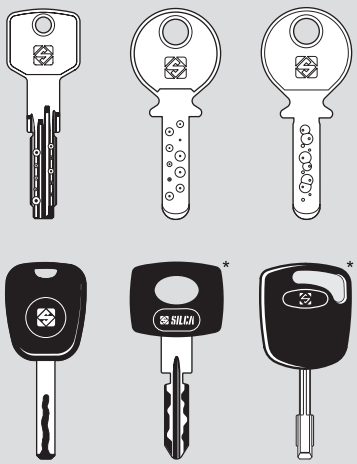

Twister II Pro is a precise, yet easy-to-use, quality key-cutting machine for duplicating dimple, laser and Tibbe* keys, as well as a variety of special keys thanks to the extensive range of optional accessories. A special feature of Twister II Pro is the tilting clamps with four positions to accommodate the widest range of keys, even those with angled cuts.

Tilting clamp with four key positioning seats and display for checking the correct gauging

Weight: 24 kg

Optimized tilting clamps for a wide range of keys
Twister II Pro features tilting clamps (0°+/-45°) with four different positions for accurate duplication of Dimple keys with flat & angled cuts, laser keys, Tibbe* keys*, flat keys* and Mercedes* keys* using optional adaptors & accessories.

Spring loaded tracer point for accurate results
The spring-loaded tracer point, activated by rotating the lock nut, ensures perfect depth alignment, ideal for accurate duplication even for a worn key.

Easy to maintain
Twister II Pro features an optimized and economical repair solution for substituting worn out clamps thanks to the replaceable jaws on the cutter side of the machine.

Bright LED lighting
The working area is illuminated by a bright, energy-efficient, long-lasting LED light.

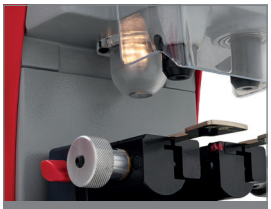

Compact and solid
Designed with a small footprint to save space, Twister II Pro is both light and built to last.

Safe
The wide transparent shield protects the operator from moving parts, metal swart and chips while cutting.
The thermal magnetic safety switch turns the machine off automatically in case of power failures, safeguarding the machine and the user.

Wide range of optional accessories
A range of tried and tested optional accessories is available to expand the machine capabilities.

Easy mechanical calibration

Powerful LED light

Interchangeable Clamps
