

## New Silca Remote Car Keys for Suzuki®

Silca is pleased to introduce two new references for duplicating Suzuki® remote car keys, the perfect solution for replacing damaged or lost original keys, or to have a duplicate in case of emergency.

### What are the main features?

The Silca Remote Car Keys for Suzuki® HU133RR18 and HU133RR19 have a similar design as the original keys and are supplied ready-to-programme with the PCB, transponder and blade included.

The two references available cover different types of immobiliser systems. The remotes feature two function buttons (lock and unlock) and can be programmed with Advanced Diagnostics devices. The remote is programmed via the manual procedure available online at [www.silca.biz](http://www.silca.biz).

The Silca Remote Car Keys for Suzuki® are packed individually in a plastic clamshell for easy identification and hook display.

 The Silca Remote Car Keys for Suzuki® have been produced in conformity with CE mark European standards.
